Overview

Introduction to Accessibility

9 Basic Requirements for Excel

1. Start in A1
2. Stay in the Grid
3. No Blank Rows, Columns, Data Cells, and Hide Unused
4. No Merged or Split Cells in Data Portion
5. Worksheet Names and Table Titles; No Blank Worksheets
6. Row and Column Headers
7. Alternative Text
8. End of Worksheet, Workbook
9. Before Saving

1. Start in A1

	A	B	C
1	Title of My Spreadsheet		
2	Task	Completion Date	Notes
3	Find Volunteers	16-May	
4	Make Note of Software Cha	20-May	
5	Put in Edits	27-May	

2. Stay in the Grid

3. No Blank Rows, Columns, Data Cells

A	B	C	D
Title of My Spreadsheet			
	Task	Completion Date	Notes
	Find Volunteers	16-May	
	Make Note of Software Cha	20-May	
	Put in Edits	27-May	
		Avoid	

A	B	C
Title of My Spreadsheet		
Task	Completion Date	Notes
Find Volunteers	16-May	
Make Note of Software Cha	20-May	
Put in Edits	27-May	

Indent text instead of inserting an empty column

	A	B	C
	Office 2013/2016 Accessibility Training Module		
1	Timeline - Summer 2016		
2	Task	Completion Date	Notes
3	Find Volunteers	16-May	No data
4	Look at old Scripts	20-May	No data
	Make note of		
5	Software changes	27-May	No data
6	Put in Edits	1-Jun	No data

The screenshot shows the Microsoft Excel ribbon with the 'Task' cell selected. A red arrow points from the 'Task' cell to the 'Alignment' group on the ribbon. The ribbon includes the following groups: Clipboard, Font, Alignment, Number, and Conditional Formatting. The 'Task' cell is highlighted in the spreadsheet grid.

	A	B	C
1	Office 2013/2016 Accessibility Training Module Timeline - Summer 2016		
2	Task	Completion Date	Notes
3	Find Volunteers	16-May	No data
4	Look at old Scripts	20-May	No data
5	Make note of Software changes	27-May	No data
6	Put in Edits	1-Jun	No data

4. No Merged or Split Cells in Data Portion

	A	B	C
1	Title of My Spreadsheet		
2	Task	Completion Date	Notes
3	Find Volunteers	16-May	
4	Make Note of Software Changes	20-May	
5	Put in Edits	27-May	

	A	B	C	D	E
1	Test Results				
2		Test 1	Test 2		
3	Student 1	12	7		
4	Student 2	14	18		
5	Student 3	Missed both tests			
6	Student 4	11	5		

Merged

5. Worksheet Names, Table Titles, Blank Worksheets

Two screenshots of an Excel table. The top screenshot shows the table title "Summer Timeline" circled in red. The bottom screenshot shows the table title "Office 2013/2016 Accessibility Training Module Timeline - Summer 2016" circled in red. An arrow points from the top title to the bottom title.

Task	Completion Date	Notes
Find Volunteers	16-May	
Look at old Scripts	20-May	
Make note of		
Software changes	27-May	
Put in Edit	1-Jun	

6. Row and Column Headers

The screenshot illustrates the process of creating a named range in Excel. The **Formulas** ribbon is active, and the **Name Manager** button is highlighted with a red arrow. A tooltip for the Name Manager button is displayed, explaining its function: "Name Manager (Ctrl+F3) Create, edit, delete, and find all the names used in the workbook. Names can be used in formulas as substitutes for cell references. For example: =SUM(MySales) instead of =SUM(C20:C30)." A red arrow points from the Name Manager button to the **New Name** dialog box on the right.

Name Manager (Ctrl+F3)
Create, edit, delete, and find all the names used in the workbook.
Names can be used in formulas as substitutes for cell references.
For example: =SUM(MySales) instead of =SUM(C20:C30).

New Name

Name: TitleRegion1.a2.d6.1
Scope: Workbook
Comment:
Refers to: =Sheet1!\$A\$2

OK Cancel

	A	B	C	D
1	Title of My Spreadsheet			
2	Linda	Robert		
3	January	1	4	
4	February	2	5	
5	March	3	6	
6	April	0	0	0

Using Excel's Built-In Table Header – Slide 1 of 4

Only works with column headers

Works with JAWS 2019-2022 and Excel 2016-365

Doesn't work with NVDA or VoiceOver

[See video](#)

Using Excel's Built-In Table Header –

Slide 2 of 4

The screenshot shows the Microsoft Excel interface. The ribbon is set to 'Home'. The 'Format as Table' button is highlighted with a pink circle labeled '2'. The table in the worksheet is highlighted with a green border, and a pink circle labeled '1' is placed over the first row. The 'Format as Table' dropdown menu is open, showing various table styles. A pink circle labeled '3' is placed over one of the styles. The table data is as follows:

Name	Address	City	State	Zip	Phone
John Doe	1234 Main St.	Austin	TX	78701	512-555-1234
Jane Smith	2345 Elm St.	Austin	TX	78702	555-555-4321

Using Excel's Built-In Table Header – Slide 3 of 4

The screenshot shows the Microsoft Excel interface with the 'Format As Table' dialog box open. The dialog box is titled 'Format As Table' and has a question mark icon and a close button. It asks 'Where is the data for your table?' and shows the range '= \$A\$1:\$F\$3'. Below this, there is a checkbox labeled 'My table has headers' which is checked. At the bottom of the dialog box, there are two buttons: 'OK' and 'Cancel'. The 'OK' button is highlighted with a pink circle containing the number 5. The 'My table has headers' checkbox is highlighted with a pink circle containing the number 4.

Name	Address	City	State	Zip	Phone
John Doe	1234 Main St.	Austin	TX	78701	512-555-1234
Jane Smit	2345 Elm St.	Austin	TX	78702	555-555-4321

6	END OF WORKSHEET		
7			

9. Before Saving

1. Select A1 cell on first sheet of workbook and save file unless you want users to start at a different part of the workbook when they open file
2. Check spelling
3. Set Print Area
4. Remove Comments
5. Run Accessibility Checker

More on Accessibility Checker, Slide 1

Accessed through the Review tab

More on Accessibility Checker – Slide 2

Alternate way to reach accessibility checker

The screenshot displays the Microsoft Excel interface with the 'Info' tab selected on the ribbon. The left-hand ribbon contains the following options: Home, New, Open, **1 Info**, Save, Save As, Print, Share, Export, Publish, Close, and Account. The main area of the 'Info' tab is titled 'Simplify Tables Example' and shows the path 'Documents » Accessibility » AccessU 2022'. Below the title are buttons for 'Upload', 'Share', 'Copy path', and 'Open file location'. The 'Protect Workbook' section is visible, with a description: 'Control what types of changes people can make to this workbook.' The 'Check for Issues' dropdown menu is open, showing three options: 'Inspect Document', 'Check Accessibility' (highlighted with a pink circle and the number 3), and 'Check Compatibility'. The 'Check Accessibility' option has a description: 'Check the workbook for content that people with disabilities might find difficult to read.'

Protect Workbook

Control what types of changes people can make to this workbook.

2 Check for Issues

Inspect Document

Check the workbook for hidden properties or personal information.

3 Check Accessibility

Check the workbook for content that people with disabilities might find difficult to read.

Check Compatibility

Check for features not supported by earlier versions of Excel.

More on Accessibility Checker, Slide 3

Will not flag lack of content in A1

Will not flag tables that are not defined, missing row/column headers

Will flag default sheet names, but doesn't flag undescriptive sheet names

Will flag missing alt text for images, but cannot evaluate quality of alt text

Will flag cell text with low contrast, but does not test charts, graphs and images

Excel Deficiencies – Slide 1

Formatting text using heading styles ignored by screen readers

The screenshot shows the Microsoft Excel interface. The ribbon is set to 'Home', and the 'Font' group is active. The task pane on the right is open, showing the 'Styles' section. A blue callout box with red text 'Screen readers ignore these' points to the 'Heading 1' style in the task pane. The spreadsheet shows a single row with the text 'Title of My Spreadsheet' in cell A1.

Tips for ALL MS Office

Using MS Office 365 Accessibility Checker

Using MS Office 2016 Accessibility Checker

The screenshot displays the MS Office 2016 interface with the 'Exercise.xlsx - Excel' window. The left sidebar contains navigation options: Info, New, Open, Save, Save As, History, Print, Share, Export, Publish, Close, Account, and Options. The main area shows the 'Info' tab for the 'Exercise' workbook, located at 'Desktop » IL-ates » Excel'. It includes sections for 'Protect Workbook', 'Inspect Workbook', 'Properties', 'Related Dates', and 'Related People'. The 'Inspect Workbook' section is expanded, showing options to 'Inspect Document', 'Check Accessibility', and 'Check Compatibility'. The 'Check Accessibility' option is highlighted, with a tooltip indicating it checks the workbook for content that people with disabilities might find difficult to read. To the right, the 'Accessibility Checker' pane is open, displaying 'Inspection Results'. It lists two errors: 'Missing Alt Text' for 'Picture 1' and 'No Header Row Specified' for a 'Table'. It also lists two warnings: 'Merged or Split Cells' for a 'Table Cell' and 'Repeated Blank Characters' for '9 Characters'.

Document Properties

The image illustrates the process of accessing document properties in Microsoft Excel. It shows the 'Info' ribbon, the 'Properties' pane, and the 'Accessible_Excel.xlsx Properties' dialog box.

Excel Interface:

- Info Ribbon:** The 'Info' tab is selected in the ribbon. It contains sections for 'Protect Workbook' and 'Inspect Workbook'.
- Properties Pane:** The 'Properties' pane is open on the right side of the ribbon. It shows the 'Advanced Properties' link, which is highlighted with a red box. A red arrow points from the 'Info' tab to this link.
- Document Properties Dialog Box:** The 'Accessible_Excel.xlsx Properties' dialog box is open, showing the 'General' tab. It contains fields for Title, Subject, Author, Manager, Company, Category, Keywords, Comments, Hyperlink base, and Template. The 'Save Thumbnails for All Excel Documents' checkbox is also visible.

Colour Contrast Analyser

<https://www.tpgi.com/color-contrast-checker/>

The screenshot shows the Colour Contrast Analyser (CCA) web application. The interface is divided into several sections:

- Foreground colour:** Labeled "(black)", it features a "HEX" dropdown menu and a text input field containing "#000000". A yellow arrow points to the input field. Below the input field are icons for color selection (a square with a diagonal line), a color picker (a circle with a diagonal line), and a help icon (a question mark).
- Background colour:** Labeled "(white)", it features a "HEX" dropdown menu and a text input field containing "#FFFFFF". A red arrow points to the color picker icon below the input field.
- Sample preview:** A section with a dropdown arrow and the text "example text showing contrast" inside a dashed box. To the right is a small icon of a bar chart.
- WCAG 2.1 results:** A section showing the "Contrast ratio" as "21:1". It lists three criteria:
 - 1.4.3 Contrast (Minimum) (AA):** Shows two green checkmarks and the text "Pass (regular text)" and "Pass (large text)". A red arrow points to the first checkmark.
 - 1.4.6 Contrast (Enhanced) (AAA):** Shows two green checkmarks and the text "Pass (regular text)" and "Pass (large text)".
 - 1.4.11 Non-text Contrast (AA):** Shows one green checkmark and the text "Pass (UI components and graphical objects)".
